Scientific Program

Respiratory Critical Care Work-shadowing

EVIDENCE & PRACTICE

DECEMBER
Genova

14 – 16, 2011

RATIONAL

The aim of the educational event “Respiratory Critical Care – Work Shadowing” is, from the one hand, to provide the state of the art of the management of the acute and chronic respiratory failure and of the underlying causes, and, on the other hand, to allow the learners to experience, alongside experts in the field (work shadowing), the use of the available technology for the diagnosis and treatment of these diseases.

In order to achieve these objectives, the education system of this course is based on plenary lectures followed by small group work and interactive discussions dealing with the instrumental procedures used in the diagnosis and treatment of the clinical patterns presented in the frontal sessions.

All the activities will take place within the Azienda Ospedaliera Universitaria IRCCS-IST San Martino, Genoa, in an environment willing to promote the exchange of experiences between teacher and learner and among learners, in order to create continuative professional relationships between the participants.

SPEAKERS

Enrico Arditì (Genova)

Gian Paolo Bezante (Genova)

Francesca Bonfiglio (Genova)

Monica Bonfiglio (Lavagna - GE)

Claudio Borghi (Bologna)

Vito Brusasco (Genova)

Lorenzo Corbetta (Firenze)

Maurizio Delucchi (Saluzzo CN)

Andrea De Maria (Genova)

Gianluca Ferraioli (Genova)

Francesco Forfori (Pisa)

Donato Lacedonia (Foggia)

Nicola Launaro (Saluzzo CN)

Carlo Mereu (Pietra Ligure)

Laura Minicucci (Genova)

Paolo Moscatelli (Genova)

Giovanni Passalacqua (Genova)

Paolo Pelosi (Genova)

Rosanna Sciutto (Genova)

Paolo Solidoro (Torino)

Michele Vitacca (Lumezzane - BS)

Alessandro Zanforlin (Rovigo)

DECEMBER 14

13.30-16.30

Introduction:
meeting aims and methods
G.W. Canonica, F. Braido

Type I Failure Respiratory: **The evidence**

Introduction
F. Braido

Respiratory Failure in Emergency Room
P. Moscatelli

Type I Respiratory Failure
P. Pelosi

Near Fatal Asthma: treatment and prevention
G. Passalacqua

Pneumonia
A. De Maria

16.30-19.30

Respiratory Failure: **work-shadowing**

CPAP in Respiratory Failure type I
E. Arditì

NIMV in COPD
N. Launaro

Endoscopy & Respiratory Failure
L. Corbetta, C. Mereu

Sleep breathing disorders in COPD

D. Lacedonia

Ultrasound in Respiratory Critical Care

A. Zanforlin

Cough Assistance

R. Sciutto, M. Delucchi

DECEMBER 15

08.30-13.00

Respiratory Failure: **work-shadowing**

CPAP in Respiratory Failure type I

E. Arditì

NIMV in COPD

N. Launaro

Endoscopy & Respiratory Failure

L. Corbetta, C. Mereu

Sleep Breathing Disorders in COPD

D. Lacedonia

Ultrasound in Respiratory Critical Care

A. Zanforlin

Cough Assistance

R. Sciutto, M. Delucchi

13.00-14.00 Lunch

14.00-16.15 Respiratory Failure: **The evidence**

Introduction

G.W. Canonica

Hyperinflation in COPD

V. Brusasco

COPD and Chronic Heart Failure treatment options

G.P. Bezante

Cardiovascular treatments: efficacy and safety

C. Borghi

Respiratory Treatments: efficacy and safety

F. Braido

16.00-18.30 Respiratory Failure: **work-shadowing**

Low-flow-veno-venous CO₂ removal

F. Forfori

Endoscopy in Respiratory Critical Patients

P. Solidoro

Airways clearance system tools

M. Bonfiglio, F. Bonfiglio

Metabolic Holter & Cough Monitoring

G. Ferraioli

DECEMBER 16

- 08.30-12.00 Respiratory Failure: **The evidence**
Pulmonary Rehabilitation: Lungs or Legs
M. Vitacca
Lung Transplantation: Timing
P. Solidoro
Respiratory Failure in Cystic Fibrosis
L. Minicucci
- 12.00-14.30 Respiratory Failure: **work-shadowing**
Low-flow-veno-venous CO2 removal
F. Forfori
Endoscopy in Respiratory Critical Patients
P. Solidoro
Airways clearance system tools
M. Bonfiglio, F. Bonfiglio
- 14.30-15.00 Metabolic Holter & Cough Monitoring
